What began as a

modest proposal that a mathematician and an economist write a short paper together blossomed, when Princeton University Press published *Theory of Games and Economic Behavior*. In it, John von Neumann and Oskar Morgenstern conceived a groundbreaking mathematical theory of economic and social organization, based on a theory of games of strategy. Not only would this revolutionize economics, but the entirely new field of

scientific inquiry it yielded--game theory--has since been widely used to analyze a host of real-world phenomena from arms races to optimal policy choices of presidential candidates, from vaccination policy to major league baseball salary negotiations. And it is today established throughout both the social sciences and a wide range of other sciences.

The mission begins in faith, hope, and beauty, but a series of small misunderstandings brings it to a catastrophic end. Bold and inventive in style, *City of Night* is the groundbreaking 1960s novel about male prostitution. Rechy is unflinching in his portrayal of one hustling 'youngman' and his search for self-knowledge among the other denizens of his

neon-lit world. As the narrator moves from Texas to Times Square and then on to the French Quarter of New Orleans, Rechy delivers a portrait of the edges of America that has lost none of its power. On his travels, the nameless narrator meets a collection of unforgettable characters, from vice cops to guilt-ridden married men eaten up by desire, to Lance O'Hara, once Hollywood's biggest star. Rechy describes this world with candour and understanding in a prose that is highly personal and

“Charming. . . . A moving testament to the diversity and depths of love.” —Publishers Weekly You’ll laugh, you’ll cry, you’ll be swept away—in less time than it takes to read this paragraph. Here are 175 true stories—honest, funny, tender and wise—each as moving as a lyric poem, all told in no more than one hundred words. An electrician lights up a woman’s life, a sister longs for her homeless brother, strangers dream of what might have been. Love lost, found and reclaimed. Love that’s romantic, familial, platonic and

unexpected. Most of all, these stories celebrate love as it exists in real life: a silly remark that leads to a lifetime together, a father who struggles to remember his son, ordinary moments that burn bright.

#1 NEW YORK TIMES BESTSELLER • The twentieth anniversary edition of the classic story of an incredible group of students and the teacher who inspired them, featuring updates on the students' lives, new journal entries, and an introduction by Erin Gruwell Now a public television documentary, *Freedom Writers: Stories from the Heart* In 1994, an idealistic first-year teacher in Long Beach, California, named Erin Gruwell confronted a room of “unteachable, at-risk” students. She had intercepted

a note with an ugly racial caricature and angrily declared that this was precisely the sort of thing that led to the Holocaust. She was met by uncomprehending looks—none of her students had heard of one of the defining moments of the twentieth century. So she rebooted her entire curriculum, using treasured books such as Anne Frank’s diary as her guide to combat intolerance and misunderstanding. Her students began recording their thoughts and feelings in their own diaries, eventually dubbing themselves the “Freedom Writers.” Consisting of powerful entries from the students’ diaries and narrative

“McConaughey’s book invites us to grapple with the lessons of his life as he did—and to see that the point was never to win, but to understand.”—Mark Manson, author of *The Subtle Art of Not Giving a F\*ck* I’ve been in this life for fifty years, been trying to work out its riddle for forty-two, and been keeping diaries of clues to that riddle for the last thirty-five. Notes about successes and failures, joys and sorrows, things that made

---

me marvel, and things that made me laugh out loud. How to be fair. How to have less stress. How to have fun. How to hurt people less. How to get hurt less. How to be a good man. How to have meaning in life. How to be more me. Recently, I worked up the courage to sit down with those diaries. I found stories I experienced, lessons I learned and forgot, poems, prayers, prescriptions, beliefs about what matters, some great photographs, and a whole bunch of bumper stickers. I found a reliable theme, an

approach to living that gave me more satisfaction, at the time, and still: If you know how, and when, to deal with life's challenges—how to get relative with the inevitable—you can enjoy a state of success I call “catching greenlights.” So I took a one-way ticket to the desert and wrote this book: an album, a record, a story of my life so far. This is fifty years of my sights and seems, felts and figured-outs, cools and shamefuls. Graces, truths, and beauties of brutality. Getting away withs, getting caughts, and

getting wets while trying to dance between the raindrops. Hopefully, it's medicine that tastes good, a couple of aspirin instead of the infirmary, a spaceship to Mars without needing your pilot's license, going to church without having to be born again, and laughing through the tears. It's a love letter. To life. It's also a guide to catching more greenlights—and to realizing that the yellows and reds eventually turn green too. Good luck.

Este livro é especialmente destinado aos jovens. Muitas das histórias aqui relatadas, foram contadas em livros, filmes e documentários. Todas trazem um aprendizado sobre a necessidade de termos consciência do momento presente, de aprendermos com o passado, de termos uma visão de futuro, de

confiarmos na caminhada até lá, e de, mais uma vez, comemorarmos o novo presente quer seja pela satisfação da vitória ou pelo aprendizado das “derrotas”. Para todos os relatos, apresentamos referências, links e sugestões de leitura ou de filmes, os quais, certamente tornarão os leitores mais fortes para sua caminhada. Tenho a convicção de que, se um jovem, recém tornado adulto, tiver conhecido, contado ou vivenciado estas experiências na vida, estará mais perto da felicidade. Este livro se destina também àqueles que já presenciaram, assistiram, viveram esses

acontecimentos, e que, ao relembrares, possam reviver as emoções e os ensinamentos, e compartilhar com os outros que ainda não ouviram falar ou não conhecem essas histórias extraordinárias.

*How to Be Free from the Fear of Death* Zondervan

In his exceptionally thought-provoking and moving memoir, neurosurgeon Joseph D. Stern explores how personal loss influences the way physicians relate to patients and their families. How does a doctor who deals with the

death of patients on a regular basis confront his own loss when his beloved sister is living out her last days? Despite a career as a neurosurgeon, Joseph Stern learned more about the nature of illness and death after his younger sister, Victoria, developed leukemia than his formal medical training ever taught him. Her death broke down the self-protective barriers he had built to perform his job and led to a profound shift in his approach to medicine. During the year of his sister's illness, Dr. Stern

developed a greater awareness of the needs of patients and their families; of the burdens they carry; of the importance of connection, communication, and gratitude; and of what it means to ask the right questions. Grief Connects Us bridges the gap between patients and doctors, providing a window into their shared concerns. Interspersing reflections from Victoria's journal, stories of patients and colleagues, and insights from experts, Dr. Stern has orchestrated a symphony of

---

voices guiding us toward greater mutual understanding and appreciation of the beauty and fragility of life. No matter which side of the patient-doctor relationship you find yourself on, listening with empathy, a willingness to be vulnerable, and emotional agility are skills we can all develop to improve how we meet difficult, unavoidable challenges.

### **A Mente Humana** Basic Books

Dr. Ben Carson is known as the originator of groundbreaking surgical

procedures and a doctor who turns impossible hopes into joyous realities. But where does this incredible drive and focus come from? According to Dr. Carson himself, the answer is simple: The Big Picture. Every day when Dr. Carson went to work as a surgeon, he had to make life-and-death decisions. For that reason, and because so many of the people and families he worked with had suddenly been forced to reconsider what's really important in

life, he's spent a lot of his own time searching for perspective. By finding a vision of something truly worth living for--something that shines a light on the best of his amazing talents, energy, and focus--Dr. Carson can discern what matters and leave the rest behind. In The Big Picture, Dr. Carson sheds light on this life-changing philosophy, giving you the tools and encouragement you need to: View hardship as an advantage Determine

---

what really matters See your life from a new perspective The Big Picture is all about broadening your perspectives and finding a vision for your own life that can reframe your priorities, energize your efforts, and inspire you to change the world around you. Are you ready to see The Big Picture?

authoritative, knowledgeable. But he's unlike any other coach you know--in fact, he's probably unlike any other person you know. Born with an extraordinarily rare condition called tetra-Amelia syndrome, Rob has no arms or legs. over the years. Told with both humor and frankness, Who Says I Can't? takes readers on Rob's incredible journey, from his birth to loving parents who wanted to afford him every chance for happiness, to the emotional and physical hurdles he faced while seeking independence, to receiving the Jimmy V Award for Perseverance at the ESPY Awards in 2019. House  
Ben Carson grew up in the inner cities of Boston and Detroit with his mother and brother. When his father deserted the family, Ben's mother worked several jobs to support her boys yet worked even harder to encourage them to get an education and follow their dreams. Ben's dreams nearly ended when his anger at being poor and the ridicule of a school mate caused him to snap; he lunged at the boy and cut him with a knife. That brush with attempted murder caused Carson to break down and ask God to turn him around. And turn him around he did. A poor

---

student, Carson under the guidance of his mother and brother became the best student in his class, his school, and ultimately earned a scholarship to Yale. The next time he used a knife was as a neurosurgeon at Johns Hopkins Hospital where he pioneered surgery techniques that not only saved lives but miraculously gave countless children an amazing quality of life. My Life is the story of a young boy who could have remained trapped in poverty were it not for his mother's tough and sacrificial love, his own perseverance that he learned from her example, and his deep faith that called him to

do great and mighty things. This book contains a new chapter about Dr. Carson's philosophies of serving one's country, becoming role models for people with disadvantaged backgrounds, using the talents God has given you, embracing what success really is, and believing, youths and adults alike, that with hard work and perseverance, "you can do it." And on May 4, 2015, Dr. Ben Carson declared himself a candidate for the Presidency of the United States of America.
