History Book

1940 Edition Oxford University Press, USA

Everyone who works with children should read this book. This book is a summary of “ADHD Nation: Children, Doctors, Big Pharma, and the Making of an American Epidemic,” by Alan Schwarz. Attention-deficit/hyperactivity disorder (ADHD) is a biological disorder of the brain that can be treated with medications when appropriate. In the 1980s, only 3 percent of American children were diagnosed with ADHD. But now that number is 15 percent—three times what the experts have said is appropriate. Meanwhile, the prevalence of ADHD in other countries such as France, Finland, and Japan, has remained low at below 1 percent. This means that millions of American kids, some as young as three years old, are misdiagnosed and taking powerful stimulant medications like Adderall and Ritalin for a psychiatric condition they probably do not have. This complete summary of Alan Schwarz’s book reveals the powerful forces fueling its widespread diagnosis and drug treatment through the experiences of three people. One is the father of ADHD and its medications, who now regrets its current misuse. The second is a 7-year-old girl who was misdiagnosed with ADHD. The third is a 14-year-old boy who faked symptoms to get the drug. Both kids spent ten years suffering the consequences of using the medication. Read this book if you are a parent, professional or individual who is dealing with the diagnosis and treatment of ADHD. This guide includes: * Book Summary—helps you understand the key concepts. * Online Videos—cover the concepts in more depth. Value-added from this guide: * Save time * Understand key concepts * Expand your knowledge

Chronology, Astronomy, Customs, Laws and Astrology of India:

Arihant Publications India limited

The Routledge Handbook of the History of Colonialism in South Asia provides a comprehensive overview of the historiographical specialisation and sophistication of the history of colonialism in South Asia. It explores the classic works of earlier generations of historians and offers an introduction to the rapid and multifaceted development of historical research on colonial South Asia since the 1990s. Covering economic history, political history, and social history and offering insights from other disciplines and ‘turns’ within the mainstream of history, the handbook is structured in six parts: Overarching Themes and Debates The World of Economy and Labour Creating and Keeping Order: Science, Race, Religion, Law, and Education Environment and Space Culture, Media, and the Everyday Colonial South Asia in the World The editors have assembled a group of leading international scholars of South Asian history and related disciplines to introduce a broad readership into the respective subfields and research topics. Designed to serve as a comprehensive and nuanced yet readable introduction to the vast field of the history of colonialism in the Indian subcontinent, the handbook will be of interest to researchers and students in the fields of South Asian history, imperial and colonial history, and global and world history.

It includes: Questions related to remembering and understanding of the subject matter. •Reason based questions. •Previous years' CBSE questions. •Information and concept based questions. •NCERT questions

Accountancy Class XI BoD – Books on Demand

Emotion “One can make any emotion into a creative force in one's life.” – Sadhguru It's not just poetic license that allows us to refer to emotions as “juicy”. In a literal sense also, emotions are a chemical cocktail that course through our bodies. But while we have no problems with pleasant emotions, unpleasant emotions are the source of much angst in our lives. In Emotion: The Juice of Life, Sadhguru looks at the gamut of human emotions and how

to turn them into stepping stones rather than stumbling blocks. Relationships “If you enhance yourself into a very beautiful state, everyone will want to hold a relationship with you.” – Sadhguru Human beings constantly make and break relationships. Unfortunately, relationships can make and break human beings too. Why are relationships such a circus for most of us? What is this primal urge within us that demands a bond – physical, mental, or emotional – with another? And how do we keep this bond from turning into bondage? These are the fundamental questions that Relationships: Bond or Bondage looks at as Sadhguru shares with us the keys to forming lasting and joyful relationships, whether they are with husband or wife, family and friends, at work, or with the very existence itself. Sadhguru is a yogi and profound mystic of our times. An absolute clarity of perception places him in a unique space in not only matters spiritual but in business, environmental and international affairs, and opens a new door on all that he touches.

World History Colchis Books

A series of six books for Classes IX and X according to the CBSE syllabus

History, Geography and Civics LMT Press

The perfect St. Patrick's Day gift, and a book in the best tradition of popular history -- the untold story of Ireland's role in maintaining Western culture while the Dark Ages settled on Europe. Every year millions of Americans celebrate St. Patrick's Day, but they may not be aware of how great an influence St. Patrick was on the subsequent history of civilization. Not only did he bring Christianity to Ireland, he instilled a sense of literacy and learning that would create the conditions that allowed Ireland to become "the isle of saints and scholars" -- and thus preserve Western culture while Europe was being overrun by barbarians. In this entertaining and compelling narrative, Thomas Cahill tells the story of how Europe evolved from the classical age of Rome to the medieval era. Without Ireland, the transition could not have taken place. Not only did Irish monks and scribes maintain the very record of Western civilization -- copying manuscripts of Greek and Latin writers, both pagan and Christian, while libraries and learning on the continent were forever lost -- they brought their uniquely Irish world-view to the task. As Cahill delightfully illustrates, so much of the liveliness we associate with medieval culture has its roots in Ireland. When the seeds of culture were replanted on the European continent, it was from Ireland that they were germinated. In the tradition of Barbara Tuchman's *A Distant Mirror*, *How The Irish Saved Civilization* reconstructs an era that few know about but which is central to understanding our past and our cultural heritage. But it conveys its knowledge with a winking wit that aptly captures the sensibility of the unsung Irish who relaunched civilization. **BONUS MATERIAL:** This ebook edition includes an excerpt from Thomas Cahill's
